

UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO. : 7,553,276 B2
APPLICATION NO. : 10/812908
DATED : June 30, 2009
INVENTOR(S) : Gavriel J. Iddan

Page 1 of 2

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Col. 9, Line 36-43, should read:

Claim 1. An autonomous in-vivo device comprising:

 a housing having a longitudinal axis of ~~symmetry~~: symmetry;
 an image sensor positioned in said housing to acquire images through a window in said housing; and
 a ballast located off the longitudinal axis of symmetry, so that said device has a center of gravity displaced from the longitudinal axis of symmetry toward said window, such that the device rests in a known orientation.

Col. 10, Line 15-27, should read:

Claim 17. An in vivo imaging device comprising:

 a housing having a longitudinal axis of ~~symmetry~~: symmetry;
 a first imager and first optical system in said housing to image in a direction parallel to an axial portion of said in vivo imaging device;
 a second imager and second optical system in said housing to image in a direction parallel to a transverse portion of said imaging device; and
 a ballast located off the longitudinal axis of symmetry of the housing, wherein said device has a center of gravity displaced from the longitudinal axis of symmetry in the direction of an in vivo area being imaged, such that the device rests in a known orientation.
